

NEW RELEASE: *ROH Flow-forged RF4*

New to the exclusive range of ROH Lightweight Performance[®] Street Wheels, all new Flow-forged RF4 in matt black finish is available in 19" & 20" staggered sizes.

Flow-forging is the most advanced technology in use today by just a handful of specialist wheel manufacturers around the world. The process begins with unique cast pre-forms which are then flow-forged after casting to produce high-strength lightweight aluminium road wheels for both street and off-road applications.

Compared to conventional as-cast wheels, ROH Flow-forged wheels are comparable to more expensive forged aluminium wheels yet retaining the ultimate styling flexibility afforded by diecasting.

RF4 utilises this advanced technology to fit all popular Australian and imported performance cars.

In 19x8.5 and 19x9.5, RF4 will not clear FPV, E-Series, or Gen-F HSV brake calipers. However, this ultra-concave wheel perfectly suits Mustang in 20x9.0 and 20x10.5 staggered sizes. The 19x8.5 is also now available in 5/112 to suit VW and Audi.

Matt black RF4 is in stock now - so contact our sales staff today for fitments and pricing.
